

NEO-EXERGY

VERIFY BEFORE SCALE.

A practical first conversation for fuel-burning assets.
Evaluate site fit and pilot evidence before any scale-up decision.

SUITABLE FIRST DISCUSSIONS

- Boilers, generators, marine and other fuel-burning equipment
- Site-fit and indicative ROI screening
- Distribution or technical partnership discussions

A CLEAR THREE-STEP START

01

Share the asset

Fuel, equipment and monthly use.

02

Agree the evidence

Define a comparable pilot and KPI.

03

Decide from data

Scale only when evidence supports it.

Begin a site-fit conversation
